**covering:** COMAX BoCo

**colour:** RAL 7016

**surface finish:** MATT

**realization:** Lukáš Kanta

# Accurate shade was a priority

Praha | CZ

During the project of roof cladding reconstruction **Lapidarium of the National Museum** was based on many years of experience in our paint laboratory materials.

According to the investor's parameters and under the control of the monument authority, a **fundamental requirement** was put forward the colour - years of oxidised natural zinc with large

multiple zinc blooms. We had to adapt to this with a new shade in RAL 7042.

Everything was finally applied on a very high quality substrate for the calibrated corrugated roofing width and full zinc with an **emphasis on adhering to metal fitting standards** applicable in the Czech Republic.

**covering:** COMAX Falc  
**colour:** RAL 7042  
**surface finish:** GLOSS  
**realization:** NEO Builder a.s.
